Program Honors in Psychology

The Psychology Honors Program provides individual instruction and advanced work particularly relevant to the major field for academically distinguished Psychology majors. Completion of Psychology Honors also satisfies the majority of requirements for University Honors, Foundation Honors, and Liberal Arts Honors. The Psychology Honors curriculum includes small classes with other outstanding undergraduates, as well as direct involvement in ongoing research projects directed by Psychology faculty. In recognition of superior achievement, students who complete Program Honors in Psychology will receive a certificate, and the Psychology Honors designation will be indicated on their official transcript.

Departmental requirements to graduate with Psychology Honors:

To be awarded Psychology Honors, students must maintain a minimum 3.5 cumulative GPR, a 3.25 Honors cumulative GPR, and complete 21 hours of Honors classes as follows:

[1] Six (6) hours of core curriculum courses, as follows:

[A] Three (3) hours in either humanities, visual/performing arts, or social science courses listed on the Psychology degree plan. LBAR 203 or LBAR 204 can be used to satisfy this requirement.

[B] Three (3) hours in either Physical/Biological Sciences or Mathematics/Logical Reasoning listed on the Psychology degree plan.

[2] Twelve (12) hours in Psychology at 300/400 level.

[A] Six (6) hours must come from PSYC 306, 307, 311, 315, 320, 330, 335, 340, 345, 319.

[B] Six (6) hours must be in PSYC 485H and/or 491H leading to a senior Honors thesis. The Undergraduate Research Fellows Thesis can be used to satisfy this requirement.

[3] Three (3) additional hours anywhere in the Psychology degree plan.

Admission to the Honors Program in Psychology:

Admission requirements for this Program are the same as those of the University Honors Program (for details, see the Honors Handbook online at <http://honors.tamu.edu/honors/general/Handbk.pdf>).

Current and potential Psychology majors whose overall GPR is 3.5 or above are encouraged to consult with the faculty director of the Psychology Honors program as early in their academic career as possible to plan their course sequence.

Director of Psychology Honors Program:

Dr. Rachel Hull
